Multiyear collaboration will accelerate AT&T's "public cloud first" internal transformation and deliver new customer offerings built on AT&T's network and Microsoft's cloud

DALLAS and REDMOND, Wash., July 17, 2019 /PRNewswire/ -- AT&T Communications and Microsoft Corp. are embarking on an extensive, multiyear alliance where the two companies will apply technologies, including cloud, AI, and 5G, to improve how people live and work today and in the future. Microsoft will be the preferred cloud provider for non-network applications, as part of AT&T's broader public cloud first strategy, and will support AT&T as it consolidates its data center infrastructure and operations.

... of voice, collaboration and conferencing, intelligent edge and networking, IoT, public safety, and cyber security. The companies already have joint enterprise solutions for networking, IoT, and **blockchain** in market, and expect to announce additional services later in 2019. The two companies envision scenarios with 5G enabling near-instantaneous communications for a first responder who is using...
